Moisture Resistant Stair Nose: Exterior Grade Composite Wood Product

Versatrim Shim
Use one to raise the Stair Nose when used for a 12 mm floors and two for 15 mm Floors
Material: Standard HDF

Installation

6 – 9 mm Floors

12 mm Floors
Use Versatrim Shim for 12 mm floors.
Installation WITHOUT using Shim for floors from 6 - 9 mm in thickness.

**6 - 9 mm Floors**

**Step 1**
Install the riser flush to the Stair. Leave 1-5/8" (41mm) distance between the outer edge of the riser and the laminate floor. Put down two lines of construction adhesive.

**Step 2**
Predrill and countersink the stair nose in a distance of approximately 10".

**Step 3**
Firmly screw the molding to the stair. Finish up the #6 screws with a color matching Color Fill.

Installation using Shim for floors 12 mm in thickness.

**12 mm Floors**

**Step 1**
Install the riser flush to the Stair! Leave 1-5/8" (41mm) distance between the outer edge of the riser and the laminate floor. Put down two lines of construction adhesive.

**Step 2**
Place the Shim on the bottom of the molding and predrill and countersink the stair nose in a distance of approximately 10".

**Step 3**
